Introduction

The 29th Annual Cardiovascular Conference in Beaver Creek, Colorado has been designed to provide a comprehensive review of the latest advances, current trends and new innovative therapies for cardiovascular disease, delivered by national leaders in the field. Interact with faculty during case-based sessions that address challenges in the diagnosis and management of common cardiovascular conditions such as atrial fibrillation, coronary artery disease, congestive heart failure and valve disease. The course will also feature a case-based fellows program, and a focus session on innovations in healthcare.

Objectives

By attending this conference, attendees should improve their ability to:

• Discuss new advances in cardiac CT and FFR-CT
• Discuss the role of SGLT2 inhibitors in cardiovascular disease
• Review novel drugs and agents in lipid therapy
• Discuss the impact of artificial intelligence in cardiology
• Describe upstream therapy to prevent atrial fibrillation
• Review the current status of renal denervation
• Describe new approaches in the management of cardiogenic shock
• Discuss how to optimize therapy in PCI patients needing anticoagulation
• Describe new innovations in transcatheter valve therapy

Course Highlights

• CV Team Symposium geared toward APPs, RNs, sonographers and pharmacists
• Case-based presentations
• Fellows program
• World-renowned faculty
• Networking lunches

Target Audience

This conference is designed for cardiologists, advanced practice providers, internists, and primary care physicians.

CME Accreditation and Credit Designation

Beaumont Health is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Beaumont Health designates this live activity for a maximum of 23.0* AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

*Amount of credit subject to change; final credits will be determined based on the final agenda and will be listed on the final CME handout provided in advance of the seminar.

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 23.0 medical knowledge MOC points in the American Board of Internal Medicine’s (ABIM) Maintenance of Certification (MOC) program. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider’s responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC credit.

Acknowledgement

This conference will be partially supported by educational grants and display fees from commercial supporters.
