

IMPLICIT BIAS TRAINING

Community Resources

The following list is made available to team members and departments interested in obtaining additional resources and unconscious bias training services independently, at their cost.

Michigan Implicit Bias Training for All Health Care Professions

This LIVE course is designed to meet the implicit bias training requirement for all health care professions in the state of Michigan. The course content covers all required topics outlined in the new rule added to the Public Health Code – General Rules R 338.7704 Implicit bias training standards. Choose from a one-hour or two-hour training.

[Implicit Bias Training \(MORC\)](#)

This three-hour live/online instructor-led Implicit Bias Training includes large group discussions, interactive breakout rooms, challenging videos, and self- assessments. Implicit bias is described as prejudices that unknowingly influence thinking and reaction to events and information. Implicit bias negatively impacts the way people are treated by health professionals; the structural inequities in healthcare can be detrimental for people of color and other members of marginalized communities, including those supported through MORC. This training has been approved for three (3) hours of Social Work CEUs.
