

COVID Safety Measures for In-Person Events

Due to the recent increase in COVID infections, the following policies will be in place for all in-person continuing medical education conferences. We understand there are differing opinions about mitigation measures, and we ask that everyone show respect to each other's comfort levels. Our goal is to create a safe and comfortable learning environment to the extent possible.

Masks will be required for all participants and event staff regardless of vaccination status. We encourage you to bring your own mask, however, masks will be available at the check-in table for your convenience. If you are not feeling well at the time of the conference, we ask that you stay home.

Meeting space will be set up with **socially distanced seating**.

Hand sanitizer stations will be available throughout the conference space.

We encourage participants to **bring a personal tablet or mobile device** to enhance the conference experience. **Low/no-contact participation** will be encouraged throughout the conference to the extent feasible, such as, questions for presenters submitted via text message; conference syllabus and presenter slides available online
